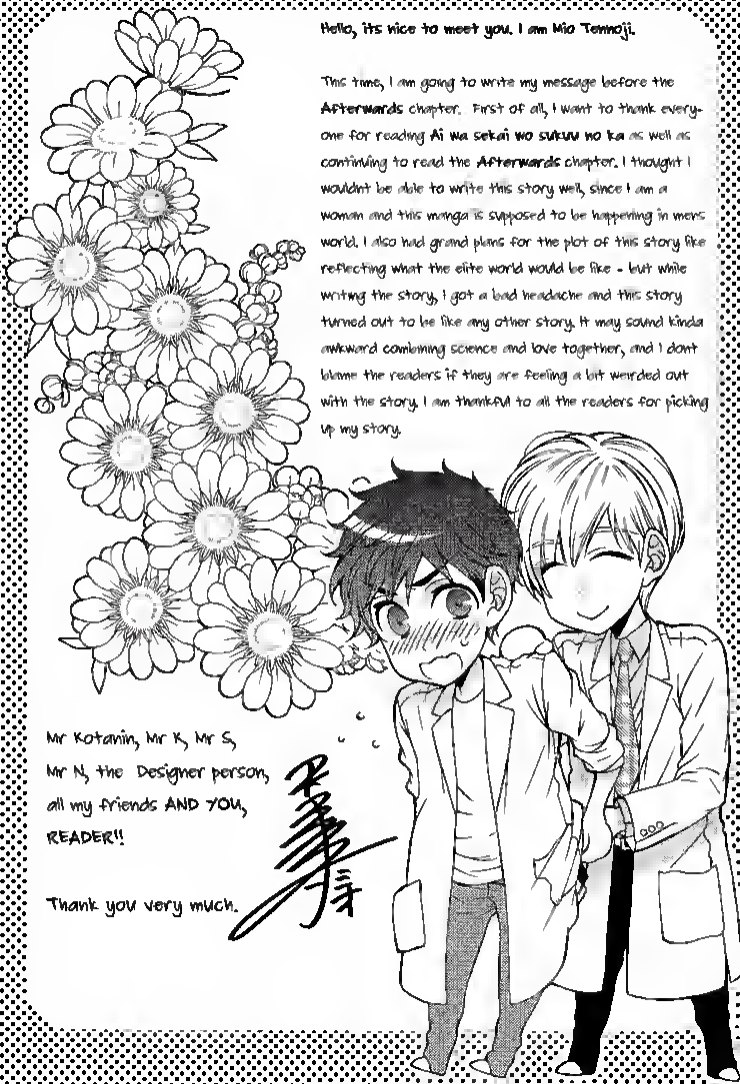
Hello, its nice to meet you. I am Mia Tennoji.

This time, I am going to write my message before the **Afterwards** chapter. First of all, I want to thank everyone for reading **Ai wa sekai wo sukuu no ka** as well as continuing to read the **Afterwards** chapter. I thought I wouldnt be able to write this story well, since I am a woman and this manga is supposed to be happening in mens world. I also had grand plans for the plot of this story like reflecting what the elite world would be like - but while writing the story, I got a bad headache and this story turned out to be like any other story. It may sound kinda awkward combining science and love together, and I dont blame the readers if they are feeling a bit weirded out with the story. I am thankful to all the readers for picking up my story.



Mr Kotanin, Mr K, Mr S,
Mr N, the Designer person,
all my friends AND YOU,
READER!!

Thank you very much.
